

Dumplings with Royal Baking Powder

No dessert is more delicious, wholesome and appetizing than a well-made dumpling, filled with the fruit of the season. By the use of the Royal Baking Powder the crust is always rendered light, flaky, tender and digestible. Dumplings made with it, baked or boiled, will be dainty and wholesome, and may be eaten steaming hot with perfect impunity.

Recipe.—One quart of flour, thoroughly mixed with three teaspoons of Royal Baking Powder and a small teaspoon of salt; rub in a piece of butter or lard the size of an egg, and then add one large potato, grated in the flour; after the butter is well mixed, stir in milk and knead to the consistency of soft biscuit dough; break off pieces of dough large enough to close over four quarters of an apple (or other fruit as desired) without rolling; and lay in an earthen dish (or steamer) and steam until the fruit is tender. Bake if preferred.

In all receipts calling for cream of tartar and soda, substitute Royal Baking Powder. Less trouble, never fails, makes more appetizing and wholesome food, and is more economical. Royal Baking Powder is specially made for use in the preparation of the finest and most delicate cookery.

Base Ball Conventions.

Proceedings of the Two Meetings in New York.

LEAGUE CONSTITUTION CHANGED.

Cincinnati and Brooklyn Admitted to the League—President Young Re-Elected President—The Association Still in a Deadlock Over the Election of a President.

New York, Nov. 15.—The National Base Ball League convention reassembled at noon yesterday and the consideration of the constitution was resumed.

Section 35, which reads: "Release of players from contract or reservation and future contracts with such players, shall be regulated and governed by the National agreement of professional base ball clubs," and the League legislation made in pursuance thereof was amended, so as to provide that "no players without the consent of the club with which he is in contract or reservation can negotiate with any other club for his services and receive money consideration therefor which may be accepted by the releasing club."

This action does away with the system of sales over which there has recently been such a cry.

Section 36, which stated that "a manager or player, whose contract has become void by reason of his clubs disbanding, withdrawing from or losing its membership in the League, may engage for the remainder of the season with any other club immediately after the League secretary's notice of such disbanding, withdrawal or loss of membership," was cut out and another section inserted, which provides that in case of such withdrawal of a club the players under contract or reservation shall be considered as released therefrom, but that any negotiation for the services of any player must be made subject to transfer to any other club designated by the League.

In Section 41, which states that four umpires must be selected, the number was increased to five.

The subject of contention during almost the entire day's session was a proposition to increase the visiting clubs receipts from 25 to 50 per cent. The Cleveland, Indianapolis, Pittsburgh and Washington clubs favored this increase while the wealthy clubs, New York, Chicago, Boston and Philadelphia were opposed to it. For two hours there was a deadlock on the question. Finally the opposition offered to compromise on 33 1/3 per cent. This was refused. Again there was a long pause to the proceedings which was broken by a proposition of the Pittsburgh and Washington clubs to accept 40 per cent. Cleveland and Indianapolis did not want to come down from 50 per cent., but they finally gave in, and the matter was settled by the adoption of 40 per cent. This change is made in Section 64 of the constitution.

The next important change in the constitution was the complete abolition of the classification clause. This matter was treated upon in Sections 30, 31 and 32, which were entirely wiped out.

Instead of five umpires which the president of the League was authorized to engage at a late hour Wednesday night, the number was increased to six in consequence of the increase of membership.

Section 9 of the constitution, which deals with the guarantee fund, was amended so as to make the bond of each club \$25,000, instead of \$5,000, the same to be paid in annual installments of \$1,000 a year.

Section 59 was so amended that postponed games can be played at any time afterwards, but it was provided that two games should not be played in one day without the prior consent of two-thirds of all the League clubs.

After these alterations the convention received the applications of the Brooklyn and Cincinnati clubs for membership. They were made out in the form required by the League constitution and were referred to the board of directors, who reported favorably upon them. The clubs were then elected to membership by acclamation.

President Young was authorized to designate and fix a distinctive color for each club uniform.

Then the convention proceeded to the election of officers. Mr. Young was re-elected president. E. De H. Robinson, of Cleveland; W. A. Nimick, of Pittsburgh; W. F. Hewett, of Washington; and Charles Byrne, of Brooklyn, were elected directors.

The following were the new committees elected: Schedule committee—A. H. Solon, of Boston; A. G. Spalding, of Chicago; and W. A. Nimick, of Pittsburgh.

Board of arbitration—Nick Young, John L. Rogers, of Philadelphia, and John E. Day, of New York.

Playing rules committee—A. G. Spalding, John B. Day and John L. Rogers.

The day's session ended with the presentation of the following communication by the Cleveland delegates:

To the Officers and Directors of the Cleveland League Base Ball Club:

"We, the undersigned, your patrons, desire to make this formal expression of our grateful appreciation of your successful efforts to give us the pleasure of witnessing this great American game played upon its merits, and divested of every objectionable feature during the season of 1889. We furthermore express the hope that you will 'keep it up,' securing as good a collection of players as your finances will warrant, and we hereby pledge you our individual allegiance and support, both moral and financial, the latter in increased measure, with some of us at least."

This document was signed by over 400 people. Among the most prominent were Collector of Customs William J. McKinn, Auditor C. P. Leland, of the Lake Shore railroad; William Christolm, president of the Cleveland Rolling Mills company; C. H. Buckley, L. Black, T. M. Hubbard, and Byron Pope. The convention after receiving this communication adjourned for the day.

The session will be continued for the purpose of arranging certain parts of the constitution so as to properly apply to the increased membership. The special committee, in their address to the public will most likely submit its reports.

Shortly after 7 o'clock the League convention, which had been in continuous session since 3:15 p. m., adjourned for the night. The newspaper men were invited into the meeting room and the health and prosperity of the Brooklyn and Cincinnati clubs were drank in glasses of champagne. Then President Young, who had been re-elected shortly before adjournment, gave out the news of the day's work.

While the newspaper men were engaged in gathering these proceedings the American Association delegates quietly adjourned for the day. They were very reticent on the subject of Brooklyn and Cincinnati, and announced that nothing of any consequence had been done at the meeting beyond the attempt to elect a president. That official, it was said, had not been chosen. The Association will meet again, and it is likely there will be some important action taken.

New York, Nov. 15.—The World announces that its female reporter, Nellie Bly, sailed on the steamer Augusta Victoria, in an attempt to travel around the world in seventy-five days, beating Jules Verne's fancied time of eighty days, as made by Phineas Fogg. Nellie Bly, according to schedule, will be due in New York on Jan. 27.

Jefferson Davis Seriously Ill.

Vicksburg, Miss., Nov. 15.—Information has just reached this city that Jefferson Davis is seriously ill at his Briarfield plantation, in Davis Bend, twenty miles below Vicksburg, and his relatives have been telegraphed for. The news of his dangerous illness caused universal sorrow in this city, and further tidings of his condition are waited for with much anxiety.

Iowa Going Back on Prohibition.

WATERLOO, Iowa, Nov. 15.—A man who formerly kept one of the largest saloons in this city but who left here when prohibition was enacted has returned and yesterday stated that he had obtained the refusal of a location for a saloon here, and he was so positive of the repeal of prohibition that he contemplated renting the building at once, paying the rent and allowing it to remain empty until a license law is enacted. The opinion is general that the legislature will repeal prohibition this winter.

Building Association League.

CHICAGO, Nov. 15.—Representatives of eighteen National building associations met Wednesday at the Sherman house to perfect the organization of the league of general building and loan associations. They elected the following officers: President, M. D. Miller, St. Paul; vice-president, George J. Pict, New York; secretary, Owen Scott, Bloomington; treasurer, W. J. Richardson, Chicago. The organization is to harmonize business methods and secure prompt action in matters of common concern.

"We Are in a Deploable Condition."
PICKERS, S. Dak., Nov. 15.—The Fort Pierre Herald, which is printed in the reservation town across the river from this place, contains a startling, but earnest appeal for help. It says: "We are in a deploable condition," and goes on to state that a company of soldiers with bayonets in hand, together with a number of squawmen and a band of Redskins are on the ground. The trouble is the outcome of rumors of orders to be issued for clearing all settlers off the reservation.

Washington Dispatches

Agricultural Fairs and Farmers' Institutions

DISCUSSED IN CONVENTION.

Session of the Association of American Agricultural Colleges and Experiment Stations—Annual Report of the Acting Judge Advocate of the Army—Other National News.

WASHINGTON, Nov. 15.—The relation of the colleges and stations to agricultural fairs and farmers' institutions was earnestly discussed at yesterday's session of the association of American agricultural colleges and experiment stations. Mr. Willis, assistant secretary of agriculture, spoke strongly in favor of sending out speakers from the colleges and stations to address farmers' meetings. It was the general sentiment of the convention that the stations should exhibit their work at state fairs, but should not contend for premiums. The farmers' institutes were heartily endorsed.

Capt. Pratt of the Carlisle industrial school, was introduced to the convention, and stated that Indian boys connected with his school had earned \$12,000 by manual labor on farm and elsewhere during the past year.

Dr. Eggleston, in behalf of the American Forestry association, urged the co-operation of the stations in teaching the farmer the importance of tree culture. The convention favored the adoption of uniform tests of dairy products according to the rules prescribed by the official agricultural chemist. Among the officers chosen for next year are President J. H. Smart, of Purdue university; India, as president; President M. E. Gates, of Rutgers college, N. J., as one of the vice presidents; Director H. P. Armsby, of the Pennsylvania state college experiment station, as secretary and treasurer; President E. H. Alvord, of the Maryland agricultural college, as chairman of the executive committee.

Desertions from the Army.

WASHINGTON, Nov. 15.—Col. Lieber, the acting judge-advocate general of the army, has made his annual report to the secretary of war. The total number of courts martial during the year was 1,999, of which ten were of commissioned officers and eight of military cadets. Absence without leave, desertion, carelessness in handling government property, drunkenness and conduct to the prejudice of good order and military discipline, were the most numerous offenses. Col. Lieber recommends a fixed system of punishments for offenses, and in this connection he says:

"It is safe to say that in no other civilized country is there a code of penal laws which gives to the persons entrusted with their execution such enormous power over the person and liberty of the subject, and in an age when in other ways we seek by every means in our power to protect it against abuse, it is strange that laws placing it so unguardedly in the hands of military power should be permitted to remain on the statute book." He thinks that the principal cause of desertion is drunkenness.

To Test Automatic Torpedoes.

WASHINGTON, Nov. 15.—The secretary of the navy has appointed a board of officers to consist of Commander T. F. Jewell, Commander G. A. Converse and Lieutenant Commander J. S. Newell to meet at College Point, L. I., and witness the tests of the controllable automatic torpedoes invented by J. N. H. Patrick. The tests will take place at the inventor's convenience. The motive power and the explosive matter of this torpedo are confined to the projectile which is guided by electric wires.

Cost of Stamps and Postal Cards.

WASHINGTON, Nov. 15.—Third Assistant Postmaster General Hazen estimates that it will cost, for the fiscal year 1891, \$1,383,890 to print stamps, stamped envelopes and postal cards for the post-office department. This estimate makes an allowance of 8 per cent for increased business. It is \$2,351 less than the present rate.

Appointment Selection.

WASHINGTON, Nov. 15.—Augustus W. Shaw, of Indiana, has been selected for appointment as deputy third auditor of the treasury, in the place of William H. Walsh, resigned. He will be appointed on the president's return from his Maryland trip.

A Robber Gets His Just Deserts.

PORTLAND, Ore., Nov. 15.—Three masked men last night attempted to rob a Chinese wood chopping camp near this city. A fight ensued in which one of the robbers was killed and one of the Chinese fatally wounded. Another of the robbers was also badly wounded with a hatchet. Myron Locke is the name of the dead robber.

Explosion in Fire Works.

BALTIMORE, Nov. 15.—The Sun's special from Petersburg, Va., says: "There was a terrific explosion in the pyrotechnic factory of Mannie & Romano, yesterday afternoon. Six thousand pieces of fire works were destroyed. Three Italian workmen were fatally burned."

New Orleans Favors Chicago.

NEW ORLEANS, Nov. 15.—After two nights' discussion, which was at times acrimonious, the New Orleans chamber of commerce and industry pronounced in favor of Chicago as the site of the world's fair by a vote of fifty-seven for Chicago and thirty-two for New York.

FARMERS' CONGRESS.

The Day Almost Entirely Taken Up in a Tariff Discussion.

MONTGOMERY, Ala., Nov. 15.—The second day's session of the Farmers' congress was well attended. The former report as to all the states being represented was a mistake. Delegates did not arrive from Virginia, North Carolina, South Carolina, Mississippi, Arkansas and several northern and western states.

At the morning session Judge Lawrence, of Ohio, president of the Wool Growers' association, on behalf of a majority of the committee of resolutions, reported a resolution demanding that in case the practical policy is continued all farm products shall be as fully protected as any article of manufacture.

Mr. Willis, of Missouri, offered a minority report, pledging the farmers of the United States to a reduction of the tariff, and to a change of duties from the necessities to the luxuries of life as far as possible.

Both reports were laid over and will come up for action later.

Judge Lawrence offered resolutions to the effect that the government does not need the revenue raised by the tax on spirits, and that the question be relegated to the states; also favoring the repeal of tax on tobacco. Both resolutions were reported adversely by the committee.

Hon. L. S. Coffin delivered an address on railroads and their relations to the farmer. The speaker was sharply criticized by a number of delegates as being too much in sympathy with railroads and corporations.

Judge Lawrence read a paper on "Wool Growing and Mutton Producing," pointing out the great benefit which arise to the whole people from increased sheep raising, and urging protection for this interest. Judge Lawrence's address was followed by some adverse discussion. One delegate cited an instance of an investment of \$1,017 in sheep which paid a profit of over 40 per cent in one year, which, he said, set this industry beyond the need of a protective tariff.

At the afternoon session a paper was read by John A. Scott, of Illinois, entitled "A Word of Encouragement to Our Farmer Boys." Another paper was read on "The Possibilities of Agriculture in Alabama," by Professor J. S. Newman, of the Alabama Agricultural and Mechanical college.

Many speeches were delivered by delegates from the north and west, all advocating wool protection.

There was a regular tariff debate on the minority and majority reports of the committee on resolutions. The voting was by congressional representation, and the delegations from Ohio, Illinois, Iowa, Michigan and Indiana were practically solid for Judge Lawrence's report.

At the evening session the minority resolutions of the committee on resolutions before referred to, were adopted by a vote of 171 to 108. The affirmative vote was: Iowa 15, Kentucky 7, Kansas 11, Missouri 1, Rhode Island 6, Ohio 34, Colorado 5, Florida 2, Illinois 28, Idaho 2, Indiana 10, Maine 11, Michigan 13, Pennsylvania 33.

The negative vote was: Alabama 12, Kentucky 7, Georgia 15, Missouri 18, North Carolina 11, Texas 11, Florida 7, Indiana 7.

OHIO'S OFFICIAL VOTE.

Campbell Over Foraker 10,873 Plurality of Other Republican Candidates.

COLUMBUS, O., Nov. 15.—The following is the footings of the vote cast for the several candidates on the state ticket at the late election:

Governor J. B. Foraker, Republican, 368,551; J. E. Campbell, Democrat, 379,421; Campbell's plurality, 10,873.

Lieutenant governor, E. L. Lampson, Republican, 375,110; W. V. Marquis, Democrat, 375,089; Lampson's plurality, 41.

State treasurer, John C. Brown, Republican, 377,102; William E. Golden, Democrat, 373,466; Brown's plurality, 3,636.

Supreme judge, F. J. Dickman, Republican, 376,658; M. D. Follett, Democrat, 373,895; Dickman's plurality, 2,763.

Commissioner common schools, John Hancock, Republican, 377,107; O. E. Miller, Democrat, 373,391; Hancock's plurality, 3,716.

Attorney general, D. K. Watson, Republican, 377,189; J. M. Lewis, Democrat, 373,336; Watson's plurality, 3,853.

Clerk Supreme Court, U. H. Hester, Republican, 367,021; I. S. Shumaker, Democrat, 373,447; Hester's plurality, 6,426.

Board of Public Works, W. M. Hahn, Republican, 377,039; Frank Reynolds, Democrat, 372,639; Hahn's plurality, 4,400.

The Prohibition candidate for governor received 26,304 votes, and the Union Labor candidate 1,048.

The vote for biennial elections was: Yes, 257,063; No, 254,213; majority for, 2,848.

This is not a majority of the total votes cast in the state, and under the precedent it would be declared lost. It is understood, however, that the supreme court will be asked to pass upon the question.

The other constitutional amendments failed to receive a majority of the votes cast.

Taxation amendment—Yes, 245,438; no, 275,276.

Legislative districts—Yes, 243,345; no, 259,420.

The returns from Hamilton county had to be returned. It had an error of 10,000 on one of the constitutional amendments.

Starved to Death.

FLEMINGSBURG, Ky., Nov. 15.—Joseph Plummer, aged 84, died near Sanford Wednesday. Two months ago he had a stroke of paralysis, and, it is said, went without food for forty days, his weight declining from 225 to 125 pounds.

THE EVENING BULLETIN

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
Proprietors.

FRIDAY, NOV. 15, 1889.

The number of cotton mills in the South have more than doubled in the past nine years. The South is getting there right along.

FLEMINGSBURG has a population of 1,200, and a well-posted citizen of that place claims that out of that number 1,100 are church-goers and 1,000 are church-members.

HON. JAMES E. CAMPBELL's official plurality for Governor of Ohio is 10,873, but the Democratic nominee for Lieutenant Governor got left, his Republican opponent pulling through by 41 plurality. There may be a contest.

THE tax assessments of the six Southern States of Alabama, Georgia, Louisiana, Mississippi, South Carolina and Tennessee amount to \$111,091,884 over 1888. If you doubt there is a genuine boom down South just consider these figures. An increase of more than one hundred and eleven million dollars in one year in the assessed value of property in six States! Let the good work continue.

THE Louisville Times very truthfully remarks: "Under Democratic rule in the South, the people have prospered and are prospering. It is a matter of business, as well as of politics and of sentiment, that causes the South to be solid. Another reconstruction, as proposed by John Sherman and William E. Chandler, would cost the South hundreds of millions, and result in so much loss to the whole country." The country doesn't want any National election law or any such reconstruction as is talked of by Republicans. The people will be heard from if such a thing is attempted.

BOYLE County Democrats have tested the new plan of holding primary elections, and it is pronounced a success. It possesses some commendable features. A committee of two thoroughly trustworthy men is appointed for each precinct, and they carry a sealed ballot-box from house to house, and receive the vote. In Boyle County it required four days to collect the ballots and sixteen hours to count them. Such a system has one very commendable feature, and that is it puts an end to the disgraceful and demoralizing scenes often witnessed about the polls in these primary contests.

THE Iowa Democrats in their nominating convention declared themselves as "opposed to the unconstitutional and unjust policy of high tariff taxation, which robs the many to enrich the few." And the battle was fought out pretty much on that line. The result is already known. For the first time in their years they have elected a Governor of the State, and almost gained control of the Legislature. Keep up the fight. "The heaven of tariff reform" is indeed leavening the whole country, and Democratic prospects for 1892 are growing brighter. Down with a system that "robs the many to enrich the few."

GENERAL FAYETTE HEWITT gave up a pretty nice "plum" when he resigned the State Auditorship. The office pays a salary of \$3,000 per annum, and in addition about \$1,500 in fees, &c., making it worth nearly \$5,000 a year to the holder. This is the position the Governor gave Colonel L. C. Norman a few days ago. But Colonel Norman was drawing a salary of \$4,000 a year as Insurance Commissioner at the time of his promotion. This now goes to Henry T. Duncan, of Bowling Green, the new Commissioner. The general shaking-up drops Colonel W. T. Havens, editor of the Mt. Sterling Sentinel-Democrat, into a very comfortable little position, that of Deputy Insurance Commissioner—salary \$2,000 a year. We were glad to hear of Brother Havens' good fortune. He is a conscientious gentleman, a tried and true Democrat, an able editor and is worthy of the honor conferred on him.

Carlisle on Cleveland.
"What do you think of the recent election?" was asked ex-Speaker John G. Carlisle by a Kansas City reporter.
"Oh, I was not at all surprised," was the reply. "Between the tariff and temperance the Republican party is rapidly disintegrating, and its doom has been sounded. I have paid no attention to politics for two months, but I can feel Cleveland in the air. He is assuredly the coming man, and will carry the banner of Democracy to victory in 1892."
"But this is an off year in politics."
"Yes, that's the way it is usually expressed by the defeated party, but don't you know that it is in the 'off years' that the people vote their real sentiments. There is no excitement then, and the voters follow their genuine convictions. The great issue is the tariff and the lever has been working until we begin to see its results. With Cleveland and free trade there is certain victory and easy sailing before us."

GIVE THE NEW BEE HIVE A CALL.

ROSENAU BROTHERS,

Proprietors Bee Hive, Second St., Near Market.

To Mrs. Ann H. Coburn.
[Inspired by reading of the celebration of your ninety-fourth birthday.]
Dear friend of my childhood
How fast flow my tears,
As I think of the past
And the long silent years
That have flitted so safely
Over you and o'er me,
And still deem your barque
Over life's fatal sea.
Four and ninety long years
Have overshadowed your brow,
And still in my thoughts
I can see you as now,
So cheery and bright,
So happy and gay,
As ever with kind words
You met me each day.
But alas! my dear friend
Such sad changes have come
For you and for me
In our once happy home,
That as now we are meeting
The "land o'er the sea,"
Let us hope we shall meet
That better "I will be."
When we meet all the "darlings"
Who have gone on before,
And who will be waiting
When God opens the door,
And the long life of justice
Discovered by you and I,
Will bring down its blessings
In that happy land.
In the home of the angels
Beyond the "dark sea,"
We will meet my loved friend
And from sorrow be free.

The total assessment of property in Louisville this year will reach about \$76,000,000, an increase of \$3,500,000 over the figures of 1888. This is a handsome showing indeed for Kentucky's metropolis and is conclusive evidence that the Fall's City is getting there in fine style. Her growth and prosperity are very flattering.

THE COLLECTORSHIP.

Latest News About the Fight for the Place—What the Papers are Saying.

The Washington City correspondent of the Louisville Times wired his paper yesterday as follows: "Mr. Sam Pinkerton indignantly denies that he came here as an applicant for Collector Goodloe's place. It is true that he has been an applicant for Consulship and has been in and out of Washington since the inauguration. But at the same time and place Mr. Pinkerton says that if he met the Collectorship in the middle of the road he would not shunt to avoid it, or words to that effect. He would not mind coming in as a compromise.

"Mr. Blaine, the acting Collector, stands well with the department here and will no doubt be in the fight. There is no better man than Judge Sneed, of Frankfort, and Captain Hutchins is a good business man and an earnest partisan. The telegram in morning papers that Mrs. Goodloe would be an applicant created much surprise here, and it is not generally believed. The Commissioner told your correspondent that there were no applications as yet. He said no woman had ever held a position of that sort, but did not say what would be done in this case."

Commenting on the contest for the position the Cincinnati Post says: "Kentucky chivalry has a chance now to show the stuff of which it is made. Mrs. Goodloe has applied for the position of Collector of Internal Revenue in the place of her deceased husband. Mrs. Goodloe has six dependent children, and is, it is believed, moreover, amply capable of filling the place. It remains to be seen if the numerous applicants will stand back and give it to the lady."

Touching on the same subject the Louisville Times, editorially, remarks: "If she come up to the Jeffersonian test—if she is honest, if she is efficient, if she is faithful to the constitution—we are conscious of no reason why she should not receive the appointment. The position is no more difficult and responsible than that of Postmaster of Louisville, an office which both political parties and five administrations have conferred upon a woman. Let down the bars and take the ladies in."

Death of an Aberdeen Oddfellow.

The funeral of E. Davis, ex-postmaster of Aberdeen, will take place to-morrow morning at 11 o'clock, at the family residence in that city. He died Wednesday evening at 8:30 o'clock, after an illness of several weeks from heart disease. His wife and three daughters survive him.

The deceased was a member of Washington Lodge No. 3, I. O. O. F., of Cincinnati, and will be buried with the honors of the order. Charter Oak Lodge of Aberdeen will have charge of the funeral services. Members of the order of this city are invited to attend.

A FLEMINGSBURG special says: "John White ran away with Robert Moore's wife at Oakwoods. The conduct of the couple for some time has caused unfavorable comment. The guilty woman left four children. Her husband pursued and overtook her, but she resisted all his entreaties and her paramour threatened him personal violence and he abandoned the chase. White is a dashing young farmer who recently came into possession of some property and his companion is a handsome, voluptuous woman of about thirty."

Millions of Dollars Sunk in the Panama Canal Scheme.

LAST HOPES FOR SUCCESS GONE.

The Capital All Exhausted and the Investors' Faith Completely Destroyed by the Beginning of Work on the Nicaraguan Canal—Other Foreign Disasters.

LONDON, Nov. 15.—The announcement that actual work on the Nicaragua canal is in progress has given a death blow to the last hopes of the Panama canal investors that they will ever witness the completion of the great ditch into which their hard earned money had been thrown. The capital of the old enterprise, as well as the faith of the investors therein, is completely exhausted, and the dupes of the old venture have only the consolation that comes from implicit belief that the new one will prove equally disastrous to those who haven't sense enough to keep out of it.

Demands of the Sultan.

ZANZIBAR, Nov. 15.—The sultan of Zanzibar refuses to entertain the demand of the East Africa company for an indemnity to cover the losses suffered because of the recent revolt. More than this, he demands payment of the subsidy promised him by the company for the first experimental years of its operations. The company resists this demand, and thinks that a second year should be allowed to it, on the ground that it is impossible as yet to estimate the loss that it has suffered.

Meeting of Two Emperors.

BERLIN, Nov. 15.—The Emperor and Empress of Germany were met at the railway station at Innsbruck yesterday by the Emperor of Austria, who embraced and kissed the Emperor William and 'kissed the hand' of the empress. The two emperors held a private conference in the saloon of the railway station, after which luncheon was served. The imperial party then resumed their journey to Berlin, the Austrian emperor accompanying them as far as Rosenbaum, Bavaria.

CHANGING THEIR LAWS.

The Knights of Labor Revising Their Constitution.

ATLANTA, Ga., Nov. 15.—The morning session of the Knights of Labor was taken up in receiving and discussing the report of the committee on laws. Nothing of public interest was done. It was decided that on Saturday the convention would go into committee of the whole on the state of the order and give every one an opportunity to ask questions and make any statement necessary.

During the afternoon session the convention received a delegation from the City and State Women's Christian Temperance Union societies. A speech was made by Miss Missouri Stokes, of Georgia, during which she congratulated Master Workman Powderly on having excluded 'ruin-sellers' from the order and on being himself a Prohibitionist.

Mr. Powderly replied, saying that the temperance people would always find their firmest allies among the Knights of Labor.

When the ladies had withdrawn, the report of the law committee, the reading of which was commenced at the morning session, was resumed.

Some very important changes in the by-laws and constitution were suggested. The most important change made was to allow the transfer of a local assembly to any district assembly or to the general assembly without the consent of either the district, National trade or state assembly as heretofore required. It was proposed to amend the fourth plank of the platform, and a long discussion followed. The matter will be taken up and settled on Monday.
